

Erudine's Behaviour Engine v2.3 Evaluation edition

Erudine's Behaviour Engine v2.3 Evaluation

For a quick introduction to Erudine's Behaviour Engine, download and play with an evaluation copy. This edition features a demonstration to guide you through basic use of the Behaviour Engine and is the perfect way to start learning more about Erudine's flagship technology.

Installing Behaviour Engine v2.3 Evaluation

To install and run Behaviour Engine v2.3 Evaluation:

1. Download the installer from **downloads.erudine.com**.
2. Navigate to the location of the download (usually Desktop) and double click the 'DemoInstallation23' icon to begin the installation.
Note: If a warning dialog box appears, click 'Run' to continue.
3. Follow the on-screen instructions to install the Behaviour Engine v2.3 Evaluation.
Note: Make sure the 'Run Erudine demo' box is checked at the end of the installation.
4. Erudine's Behaviour Engine v2.3 Evaluation will load and a webpage entitled 'Creating Behaviour with the Behaviour Engine' will open.
5. Follow the instructions on the webpage to run through a demonstration of the software.
